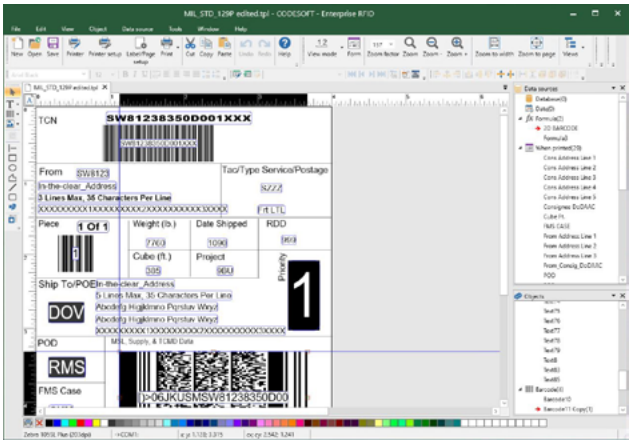
TEKLYNX
BAR CODE SOFTWARE

# CODESOFT

CODESOFT is an enterprise-level barcode label design application offering unmatched flexibility, power, and support. Available in print engine, standalone, and network configurations, CODESOFT is designed to meet all of your labeling needs. Whether your goal is managing assets and resources, controlling distribution channels and stock levels, tracking documents, or managing data records, CODESOFT provides a solution for your organization's most advanced labeling needs.



TEKLYNX Subscription Licensing is available for CODESOFT. Subscription Licensing is the best option for maximum flexibility and long term value. The upfront cost of a CODESOFT subscription license is lower, and it includes more value than ever before.

- Keep your software up to date, without spending extra time or money.
- Easily understand software costs for simplified and predictable budgeting.
- Take advantage of unlimited access to software maintenance, technical support, and training webinars.

# FEATURES

CODESOFT is packed with the features you need to meet high-complexity label design needs.

- **Easy to Use** - Intuitive interface allows users to quickly become comfortable and efficient using the application.
- **Powerful** - 100+ barcode symbologies allow you to easily comply with industry standards.
- **Connectivity** - CODESOFT supports complex integration with databases and other business systems.
- **RFID** - CODESOFT offers support for RFID label creation and native printer drivers for 300+ RFID capable printers.

# BENEFITS

How can CODESOFT help solve your business challenges?

- **Design Complex Labels Easily** - CODESOFT is an advanced label design application that gives you the ability to easily design a label, connect it to a database, or add complex barcodes such as HIBC or GS1 using CODESOFT's intuitive interface and wizards.
- **Increase Efficiency** - With CODESOFT's flexibility, you can easily integrate label printing and RFID technology into your business processes, increasing both efficiency and control. Adding CODESOFT to business processes is simple with its intelligent interface, helpful wizards, and simple database connections.
- **Grow Your Business** - As your labeling needs grow to require faster printing, more control, and process automation, leverage CODESOFT's integration with TEKLYNX' enterprise solutions.

# HOW TO BUY

TEKLYNX sells its label design software through a network of Value-Added Technology Resellers.

1. Download a demo from teklynx.com/codesoft, and try out the software for 30 days.
2. A TEKLYNX representative will contact you to discuss your labeling needs and help you select the best label design solution for your company.
3. TEKLYNX puts you in touch with a Value-Added Reseller in your area.
4. Purchase the software through the Reseller.

# EDITION COMPARISON

Which edition of CODESOFT is right for your labeling needs?

CODESOFT Pro is a great starting point to meet your immediate labeling needs. It is only available as a single user license and is limited to 3 printers.

CODESOFT Enterprise has unlimited printer support and is available with network (multi-user) licensing.

Note: To run CODESOFT on a virtual machine, a CODESOFT VM license is required.

Visit www.teklynx.com/codesoft for more information.

| CODESOFT Feature | Pro | Enterprise |
|---|---|---|
| Virtual machine product available (fully tested and supported) | x | x |
| Network version available | | x |
| Runtime (print-only) version available | | x |
| Number of printers supported | 3 | Unlimited |
| Supports Windows printers | Default printer only | x |
| Printer code converter | x | x |
| TCP/IP printing | x | x |
| ActiveX | Basic | x |
| Hidden (unprintable) objects | x | x |
| Graphic & native barcodes | x | x |
| Circular barcodes | | x |
| Rich Text Fields (RTF) | | x |
| ListField | | x |
| GridField (print documents containing more than one database record) | | x |
| Tagged Text Management (define different styles within one rich text field) | | x |
| TextArt | x | x |
| Unicode font support | x | x |
| Command line options | x | x |
| Label password protection | x | x |
| Multi-level password protection (full control & print only) | | x |
| Vector graphic format import | | x |
| Export label as a graphic | | x |
| Fit to frame option | | x |
| RFID support | | x |
| Lock/unlock objects | | x |
| Use Form Viewer to view custom screens created with Form Designer | | x |
| PortWatch (integrate with external hardware, i.e. a scale) | | x |

# Is CODESOFT your solution?

CODESOFT is ideal for highly complex labeling environments.

Companies who use CODESOFT have complex label design and integration needs within an enterprise environment. CODESOFT users may require connection to SQL or Oracle databases, RFID printing, and VB scripting to trigger print jobs. Their labeling process includes strict approval rules that must be followed before labels can be printed.

Companies who use CODESOFT typically have:

- Over 10 printers
- Significant number of users
- Multiple production lines and locations
- Third-party suppliers who print their labels
- Lean manufacturing initiatives
- Compliance regulations
- Business system integration
- Color labeling requirements

# TEKLYNX Offers Solutions for All Levels of Labeling Complexity

LABEL MATRIX
- Simple labeling requirements with fixed data
- Familiar interface
- Helpful label design wizards

LABELVIEW
- Medium complexity labeling requirements
- Simple database connections
- Customizable print forms
- Intuitive interface

CODESOFT
- High complexity labeling requirements
- RFID support
- Complex database integration
- Regulatory compliance, such as:
  - Unique Device Identification (UDI)
  - Globally Harmonized System of Classification and Labeling of Chemicals (GHS)

Enterprise Label Management Solutions
- Maximum complexity labeling requirements
- CODESOFT + SENTINEL integrates with any ERP system to completely automate label printing
- CODESOFT + LABEL ARCHIVE enables tracking of every aspect of the label design process and robust user permissions
- TEKLYNX CENTRAL is a centralized, browser-based label management solution for the whole enterprise

# About TEKLYNX

TEKLYNX International is the world's leading barcode and RFID labeling software developer and solutions provider. An industry innovator for over 30 years, TEKLYNX helps companies operate smoothly and efficiently by implementing labeling solutions that streamline operations while staying ahead of industry-specific compliance and emerging regulations. TEKLYNX is world-renowned for its customer service; offering flexible purchase options, unparalleled service and support, and a comprehensive product offering that grows with companies over time. With operations in the United States, Latin America, Europe, Japan, China and Singapore, more than 630,000 companies in over 120 countries look to TEKLYNX integrated software solutions for their standard of success.
